Spirits Canada Code of Responsible Advertising & Marketing

Preamble

Spirits Canada/The Association of Canadian Distillers is the national trade association representing the producers and marketers of distilled spirits manufactured and sold in Canada. This “Code of Responsible Advertising and Marketing” (the Code) provides guidance to Spirits Canada members in regards to their promotional activities and programs in Canada.

The consumption of beverage alcohol has played an accepted and important role in the cultural and social traditions of both ancient and modern societies. Spirits Canada members take special pride in their products and in their shared commitment to promoting responsible consumption by those adults of legal purchase age who choose to drink. Nevertheless, it is the obligation of each consumer who chooses to drink to do so in a responsible manner.

Spirits Canada and its members are committed to promoting the responsible distribution, sale, marketing and consumption of beverage alcohol. Spirits Canada supports and partners with various government departments and ministries, public health organizations, law enforcement agencies, research and academic groups and other stakeholders across the country whose goal is to minimize the risks associated with the misuse or abuse of beverage alcohol.

The Code does not replace federal or provincial statues or regulations, but rather is a statement of principles Spirits Canada members voluntarily commit to upholding. Indeed, these voluntary commitments to responsible advertising standards may establish a higher standard than those mandated under Canadian and provincial law and regulations.

Scope

The Code applies to all activities undertaken to advertise and market distilled spirits. Spirits Canada Members are encouraged to ensure all the beverage alcohol products they represent in Canada including malt-based, cider or wine also comply with the Code. These activities include brand advertising, consumer communications, promotional events, packaging, labels, and sales materials.
Spirits Canada Code of Responsible Advertising & Marketing

The provisions of the Code apply to every type of print and electronic media, including the internet, and any on-line or digital communication, used to advertise or market beverage alcohol. These provisions also apply to every type of promotional or marketing activity or event, including all product placements (e.g. movies, television programs, music videos, video games) and sponsorships.

Spirits Canada members recognize that it is not possible to cover every eventuality in a code and, therefore, agree to observe the spirit as well as the letter of this Code. Questions about the interpretation of the Code, member companies’ compliance with the Code, and the enforcement of its provisions are directed to Advertising Standards Canada (Ad Standards).

Definitions

“Age affirmation” is a process or a mechanism by which users provide their full date of birth (month, day and year) and, when appropriate, country of residence to affirm they are of legal purchase age. Age affirmation mechanisms may vary depending upon available technology and examples could include, among other things, an age affirmation page, an email or instant messaging age affirmation, or the use of a site’s “registered user” database of users of legal purchase age.
If a user enters a date of birth that indicates they are under the legal purchase age, access to a member-controlled website should be denied and visitors should be given an appropriate message and/or directed to an information website on responsible drinking.

"Direct interaction" is a two-way communication between the user and the brand advertiser on a site or web page controlled by the brand advertiser. It occurs when the user affirmatively interacts with the brand advertiser, such as responding to a direct communication from the brand advertiser.

"Forwardable" content is any branded digital content placed on a site in a manner that is designed or enabled to be shared, such as with a share, download or email “button click.” Such content should include instructions to individuals downloading the content that they should not forward these materials to individuals below the legal purchase age.

"Primary appeal” to persons under the legal purchase age if it has special attractiveness to such persons beyond the general attractiveness it has for persons of legal purchase age.

"Sponsorships” are commercial, contractual agreements between a beverage alcohol company (the sponsor) and a sponsored party or sponsorship property establishing an association between the sponsor’s brands or products and the sponsored party or sponsorship property in return for rights to promote this association.

"User Generated Content (UGC)” is material (including text, pictures, audios, and videos) that has not been created by the brand advertiser, but by a user. UGC that appears on a site or web page controlled by the brand advertiser should be monitored each business day or, at a minimum, every five business days. When content is determined to be inappropriate, the inappropriate material should be removed promptly. A disclaimer should appear saying that all inappropriate content generated by users will be removed from the site or web page over which the brand advertiser has control.

**Code Review Process**

The Code supplements those advertiser obligations outlined under relevant Canadian federal and provincial laws and regulations as well as those contained in the Canadian Code of Advertising Standards administered by Advertising Standards Canada (Ad Standards). Consumer complaints about alcoholic beverage advertising may be reviewed and adjudicated against both the Canadian Code of Advertising Standards and this Code by Ad Standards.
